

## Write your own metaphors.

Use the pictures as inspiration for some great metaphors. If you feel stuck - try and write a simile and then rewrite the sentence taking away like/as. A metaphor is a simile with the scaffolding taken away!

**Try and be creative - the best metaphors make you see things in a new way by comparing two unexpected things. My example is a very boring metaphor!**

### Example

Simile - The eagle was like an aeroplane soaring through the sky.

Metaphor - The eagle was an aeroplane soaring through the sky.
