# Find your way

Compare and order numbers up to 100

1 Find a way from Start to End by drawing lines to join the numbers.

A line can go sideways  $\leftarrow \rightarrow$ , up and down  $\uparrow \downarrow$ , or diagonally  $\nearrow \nwarrow \searrow \swarrow$ .

Your numbers must be in order, smallest to largest.

If you come to an empty square, you can write any number in it, as long as your numbers stay in order.

Start	27	39	43	30
	32	49		28
66	53	38	62	
55	60		61	
83		59		End

2 Now find a different way from Start to End.

Start	27	39	43	30
	32	49		28
66	53	38	62	
55	60		61	
83		59		End
