

Name _____ Class _____ Date _____

Cut out the pieces of the skeleton below and stick them in the correct order.

Once you have stuck the skeleton together, label the bones using the words in the box. You may have to do some research to find out where to position some of the bones.

backbone	collar bone (clavicle)	foot bones (tarsals)
forearm bones (ulna, radius)	hand bones (carpals)	
knee cap (patella)	ribs	upper arm bone (humerus)
shoulder blade (scapula)	skull	shin bone (tibia)
sternum	thigh bone (femur)	small lower leg bone (fibula)
		vertebrae

I can...

- describe the positions of some major bones in the human skeleton.
