Kangaroo addition

Make addition number sentences to 6 by counting on

2 jumps forward

$$\square + \square = \square$$

3 jumps forward

$$\square + \square = \square$$

1 jump forward

$$\square + \square = \square$$

2 jumps forward

$$\square + \square = \square$$

2 jumps forward

$$\square + \square = \square$$

Teacher's notes

For each picture, children use the number of the box the kangaroo is standing on, the number of jumps it takes and the number of the box it lands on to complete the addition calculation.
