

Write a multiplication calculation to match this array.

$$\square \times \square = \square$$

Circle the division calculations that match the model.

$$15 \div 2 = 5 \quad 5 \div 3 = 15$$

$$15 \div 5 = 3 \quad 15 \div 3 = 5$$

Share the 2p coins equally between the 3 purses. How much money is in each purse?

There are 15 children in the class.

The teacher asks them to get into groups of 5. How many groups of 5 will there be?
