

Name: _____ Date: _____

6-digit order

Order and compare numbers to 1 000 000 and determine the value of each digit

You will need:

- paper clip and pencil – for the spinner

Challenge

1

Write the digits 1, 2, 3, 4, 3, 2 on the spinner.

Challenge

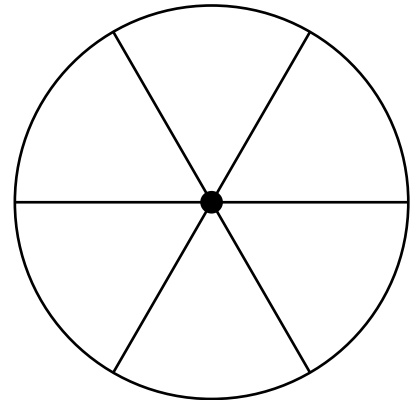

2

Write the digits 3, 4, 5, 6, 4, 6 on the spinner.

Challenge

3

Write the digits 6, 7, 8, 9, 7, 8 on the spinner.

- Spin the spinner six times, each time noting down the number it lands on until you have made a 6-digit number.
- Write this number in the first column of the table below.
- Make eight 6-digit numbers.
- In the second column, put your numbers in order, smallest to largest.

6-digit numbers	Numbers in order

Read the numbers you have put in order to someone at home. Ask them to listen and check they are in order, smallest to largest.
