

Name: _____ Date: _____

Division HTO ÷ O with a remainder

Use the formal written method of short division to calculate $HTO \div O$

For each division calculation write your estimate, then use the formal written method to work out the answer. Record any remainders.

Example $279 \div 6 \rightarrow$ (300 ÷ 6 = 50)

		H	T	O	
		4	6	r3	
6	2	7	9		

a $353 \div 4 \rightarrow$

		H	T	O	
4	3	5	3		

b $216 \div 5 \rightarrow$

		H	T	O	
5	2	1	6		

c $315 \div 4 \rightarrow$

		H	T	O	
4	3	1	5		

d $208 \div 6 \rightarrow$

		H	T	O	
6	2	0	8		

e $297 \div 4 \rightarrow$

		H	T	O	

f $528 \div 6 \rightarrow$

		H	T	O	

g $421 \div 5 \rightarrow$

		H	T	O	

h $476 \div 9 \rightarrow$

		H	T	O
