

**Asthma Care Plan—2022/2023**

Child's Name		
Room Number & Year Group	Room No:	Year Group:
Date of Birth		
Child's Address		
Date Asthma Diagnosed		

Following new Department of Health guidance, we now hold an emergency salbutamol inhaler in school for any instances where the child's own inhaler is not available. Please note, the school's emergency inhaler may only be used in exceptional circumstances and comes at a considerable cost to the school, therefore it is not intended to be used as a replacement for the child's usual inhaler.

We must obtain parental consent for this inhaler to be given in the event of an emergency.

**I consent to my child being given the emergency reliever inhaler if their own inhaler is not available.**

Parent/Guardian Name	
Signature	
Date Form Completed	

G.P. Name	
Surgery Phone No.	

What are the typical things that may trigger your child's asthma?

--

Describe what an asthma attack looks like for your child and their usual symptoms:

--

Please give the name of your child's asthma medicine(s), how often it is used and the dose (e.g. once or twice daily, just when they have asthma symptoms, before sport etc.)

--

***(Continued overleaf)***

Who is to be contacted in an emergency? Please give three contact names and telephone numbers:

Contact No 1:

Contact No 2:

Contact No 3:

### **ADVICE FOR PARENTS**

#### **Remember:**

- 1. It is your responsibility to tell the school about any changes in your child's asthma and/or their asthma medications;**
- 2. It is your responsibility to ensure that your child has their 'relieving' medication with them in school and that it is clearly labelled with their name. You should confirm this with your child's class teacher;**
- 3. It is your responsibility to ensure that your child's asthma medication has not expired and to replace medication as needed;**
- 4. Your child should not be exposed to cigarette smoke.**
